

MICS Courses

Proctor will remain same throughout the Activity/Course.

These courses are designed so proctors can become capable enough to transplant new devices. There are two courses offered:

- MINISTERNOTOMY Course
- RAT Course

REQUEST

PRECEPTORSHIP Information

Here users will be asked to enter preceptorship information in the same way as before.
In this we need to show all those COE's who have marked themselves in "Qualified for New MICS program?" as YES.

And Proctors linked with selected COE will be displayed below.

The screenshot shows a web application interface for a 'PRECEPTORSHIP REQUEST' form. At the top, there is a progress bar with nine steps: 1. NEW MICS COURSES, 2. RAT, 3. SEPTEMBER 2021, 4. PRECEPTORSHIP INFORMATION (highlighted in red), 5. First Proctorship, 6. Certification Proctorship, 7. Trainees Profile, 8. Submit Request, and 9. Submit Request. The main form area is titled 'PRECEPTORSHIP REQUEST' and contains several input fields: 'Preceptorship start date' with the value '22-09-2021', 'Preceptorship end date' with an empty text box, 'Product' with the value 'Perceval', 'COE' with a dropdown menu showing 'Select input', and 'Proctor' with a dropdown menu showing 'Select input'. There is also a '# of trainees' field and a 'Notes' section with a large text area.

First Proctorship Page

Here users will be asked to enter First Proctorship information in the same way as before.

- If the user is SUPER ADMIN, we will show countries around the globe.
- If the user is ADMIN, we will show countries from his macro zone.
- If the user is a SALES MANAGER, then he will only show his country.

Hospitals are not listed in any case. Need to confirm this.
